will soon move to the Computer-Aided Design program.

Principles of Engineering students are building, testing, and evaluating the mechanical advantage of simple machines. And students in Digital Electronics are soldering a project that will later be used to assist them in bread-boarding their digital designs.

Students earn college credit while enrolled in SHS's engineering program through Ivy Tech.

Engineering Students "Gear Up" For An Exciting Year

Students enrolled in SHS's Engineering courses are already diving head first into engineering design challenges. Students in Introduction to Engineering Design are working on their technical sketching skills and

Guidance Changes for 2013-14

SHS is very fortunate to have additional support in our Guidance department this year.

Shannon Mount comes to us from Scottsburg Elementary as our new full time counselor. She says she is excited to be working with high school students. She is passionate about helping this age group transition to the next level of their education.

Lynda Phillips comes to SHS courtesy of a grant from the Community Foundation. She has been a tremendous help in getting our students into the classes they need for the year.

In addition to overseeing our Credit Recovery & Virtual School Programs, Mrs. Burow has taken on the additional role of Graduation Coach. She will assist students who have fallen behind on credits in getting back on track.

Picture Day is Sept. 9

All students should have their picture taken on that day to receive their free student ID card. Order envelopes for pictures were distributed yesterday during Advisory and additional order forms are available in each front office.

If you wish to purchase a photo package, students should bring the completed form with payment directly to the photographer on picture day when their class is called. Pictures may also be ordered online using order code 389742 at: www.inter-state.com.
